

Nominee: NexStor LTD

Nomination title: Tiered backup for the NHS

NexStor worked with and provided Morecombe Bay NHS Trust a disk target for their Commvault backup software. This backup is then seamlessly copied to a tape library for off-site DR. Products installed were the SpectraLogic Verde and T50 tape library

Why nominee should win

The project was delivered on time and to budget

The project had a significant impact on this part of the NHS's ability to protect peoples data

NexStor have operated within the public sector for over 10 years with many successful projects delivered.
